EDMONTON, THURSDAY, JULY 31, 1913.

TWELVE PAGES

LOCAL COMPANY T
STOCK RANCH WITH
P.E.I. BLACK FOXES

Second Largest Fox Breeding Establishment in the World For Edmonton.

MAYOR A PROMOTOR OF COMPANY INCORPORATED

Prospectus Tells Story of Gigantic Profits Possible from the Business of Raising High Priced Fox Pups.

The second largest fox breeding ranch in the world, and the most important outside of Prince Edward Island, will be established in Edmonton by a company at present under process of incorporation, and of which Mayor S. J. D. Kennedy is one of the promoters. The prospectus which will be known as the Edmonton Silver-Black Fox company, limited, has already been issued, and it is stated that the fox breeding industry in Alberta as F. M. Lee, of the Western Hare Fur company, whose ranch on the south side was the first in the province, and J. D. Kennedy, of Tofield, another well known breeder.

The actual work of organization is being carried out by J. Leonard Paul, of the J. Leonard Paul company, limited, a firm which has been connected with the Prince Edward Island fox industry for several years past. Such at the Royal 125th St. today, Mr. Paul stated that the company, which will probably be capitalized over the \$100,000 mark, is at present seeking incorporation from the dominion authorities and the stock will probably be offered to the public next week.

All the promoters of the Edmonton Silver-Black Fox company are well known local men. Following is the list of the incorporators: Mayor S. J. D. Kennedy, of Glenora, and Hugh P. M. Lee, of the Western Hare Fur company; J. D. Kennedy, Tofield; H. A. Mackie, of Gorman, and J. Leonard Paul.

Mr. Paul explained that the new company differed essentially from any other similar concern which had been started in Alberta, in that only pure bred foxes from Prince Edward Island will be used. In all previous attempts at breeding which have been carried out in the province, wild foxes have been used.

Mr. Paul stated that options had already been secured on 14 pairs of "breeders" from Prince Edward Island.

Referring to the fact that wild foxes would be used on the new ranch, Mr. Paul said he had no desire to propagate Northern foxes, which his son, in his dealing, had been known to do. "The difference between a wild fox and a pure bred fox is that the wild fox is the same fox as the pure bred fox, but the wild fox is a mongrel, and the pure bred fox is a pure bred fox."

When asked when the new ranch would be opened, Mr. Paul stated that the wild Northern foxes, when properly mated, often gave very good results, but they were not back and gave cross stock.

With pedigree Prince Edward Island foxes, it is asserted, they will be able to breed absolutely pure stock. The J. Leonard Paul company, which is now negotiating for the 14 pairs of breeding foxes, have given a guarantee to the Edmonton Silver-Black Fox company that they will pay \$5,000 for every pup short of 25, should the first year's breeding result in fewer pups than 25. The new company is thus assured of a profit of at least 30 per cent.

On the first year's working, it is anticipated, however, that more than \$3,000 will be made, and that the probable profit being estimated at 10 per cent. According to the prospectus of the company, the first year's work may be conservatively placed at \$25,000. The first year's work may be conservatively placed at \$25,000.

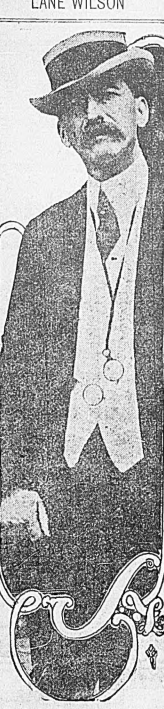

Mr. Paul has had several years' experience for the ranch, which will be located in the immediate vicinity of Edmonton. He has been a dealer in foxes for many years, but at a distance from Edmonton has not yet been made. Excluding the requirements for the ranch, Mr. Paul said the actual property required to be heavily developed, in correspondence with conditions which are met in their wild state, but, on the other hand, it must not actually be a wild, to safeguard against the possibility of loss.

The latest fox ranch in the world, that of Charles Dalton, at Prince Edward Island. The new Edmonton ranch, however, will take second place, surpassing all the other P. E. I. and Western American ranches.

CHIEF CARPENTER SENDS S.O.S. TO HEADQUARTERS

Chief of Police Carpenter went out for a little hunt this morning in the city, which is supplied for his use and which are being around the Exhibition grounds he got into mud that was on the top of the boat to navigate. As a result the S.O.S. cry went forth and the police were dispatched to his rescue. The boat was towed to the shore and the car from the mire.

AMBASSADOR HENRY LANE WILSON

Head of the United States diplomatic mission in London, Ambassador Henry Lane Wilson, is seen here on his way from London to Washington, D.C., after a visit to the United States.

But the views of the Delivery Inspector Are Not Considered Weighty.

MAYOR'S CUMBERSOME PLAN PROCEEDED WITH IMMENSE STRING OF NUMBERS

Will Have to Be Used to Designate the Addresses of Houses.

The committee appointed at the last council meeting to take up with the mayor the new plan for re-designating the city streets met yesterday afternoon in the mayor's office, and heard objections to the system presented by the superintendent of delivery, Lambert of the postoffice department.

Mr. Lambert is not at all pleased with the new system and considers it very cumbersome. He pointed out to the mayor and the members of the committee acting with him that four and five figure numbers immediately followed by a three-figure street or avenue will be very confusing and lead to many errors. These will give the postoffice department, no end of trouble. He suggested that the system now used on the south side where the city streets are designated by the entire city, having the streets and avenues all starting from the centre of the city which is the division of avenue and first street. This is the system now in use in most of the largest cities of the continent. It is the system which complete plans were prepared in the engineer's department by an experienced engineer, who has numbered some of the largest cities in the states.

Proceeds With Work.

The views of the postoffice delivery inspector were not considered important enough to affect the new system, but the committee proceeded with its work.

The immense string of numbers that must be used hereafter to designate the houses is one of the drawbacks to the system. Business premises along Jasper avenue which are today designated with one or two figures will under the new system have some such designation as 10199 101st avenue.

Yesterday afternoon on the suggestion of Alderman Smith a change was made in the avenues. Under the mayor's scheme first avenue started at the extreme west boundary of the city which would bring Jasper avenue to be known hereafter as 42nd avenue. This arrangement has been changed so that Jasper avenue will become 101st avenue. This will conform with the arrangement of the streets on the north side. If the system is ever put into effect, will become 101st street.

The avenue south of Jasper will number the streets as first is reached and north of Jasper the avenues will be numbered as first is reached. The same will apply to the streets, from 101st street west the streets will increase in number and from the same street east the numbers will decrease until the city limits have been reached.

To Designate Odd Streets.

Under the mayor's plan, where an odd numbered street is designated by the letter "A" following the number. Objections were raised to this plan by the committee, but it was finally allowed to stand.

The committee decided to order at once 8,000 name plates for use in connection with this work. These will have a blue background with white letters, estimated that in all 16,000 name plates will be required to cover the entire city, but only those on the north side of the city, where the streets are located will be covered at the present time. These name plates alone will cost \$24,000, and there will be the additional cost of new numbers for the houses as well as the cost of making the change.

The name plates will not be delivered in less than one month, and the date the order is placed. When they arrive the work of renaming and renumbering will be commenced.

POST OFFICE MEN MAKE OBJECTION TO REENUMBERING

But the Views of the Delivery Inspector Are Not Considered Weighty.

MAYOR'S CUMBERSOME PLAN PROCEEDED WITH IMMENSE STRING OF NUMBERS

Will Have to Be Used to Designate the Addresses of Houses.

The committee appointed at the last council meeting to take up with the mayor the new plan for re-designating the city streets met yesterday afternoon in the mayor's office, and heard objections to the system presented by the superintendent of delivery, Lambert of the postoffice department.

Mr. Lambert is not at all pleased with the new system and considers it very cumbersome. He pointed out to the mayor and the members of the committee acting with him that four and five figure numbers immediately followed by a three-figure street or avenue will be very confusing and lead to many errors. These will give the postoffice department, no end of trouble. He suggested that the system now used on the south side where the city streets are designated by the entire city, having the streets and avenues all starting from the centre of the city which is the division of avenue and first street. This is the system now in use in most of the largest cities of the continent. It is the system which complete plans were prepared in the engineer's department by an experienced engineer, who has numbered some of the largest cities in the states.

Proceeds With Work.

The views of the postoffice delivery inspector were not considered important enough to affect the new system, but the committee proceeded with its work.

The immense string of numbers that must be used hereafter to designate the houses is one of the drawbacks to the system. Business premises along Jasper avenue which are today designated with one or two figures will under the new system have some such designation as 10199 101st avenue.

Yesterday afternoon on the suggestion of Alderman Smith a change was made in the avenues. The name plates will not be delivered in less than one month, and the date the order is placed. When they arrive the work of renaming and renumbering will be commenced.

FIFTEEN MILLION TO LEARN COST OF RAILWAYS OF U.S.

Interstate Commerce Commission to Undertake Tremendous Task.

WILL TAKE SEVEN YEARS TO GET THE FIGURES

Specially Organized Corps of Trained Men Will Divide Country Into Five Divisions of 50,000 Miles Each to Get Facts.

Washington, July 31.—Physical valuation of the railroads of the United States by the interstate commerce commission will take from five to seven years by a specially organized corps of men and will cost the government from \$10,000,000 to \$15,000,000 or more, according to the plans of the commission, presented to the house appropriations committee today.

The commission has asked for an immediate appropriation of \$6,500,000 for the organization of the corps of engineers necessary to undertake the work. Commissioners Clements and Proulx and Secretary George B. McQuinn of the commission, have told the house appropriations sub-committee that a carefully worked out estimate shows the cost of field work to be \$21,000,000 a year throughout that period.

The plans presented by Mr. McQuinn contained the division of the country into five districts containing approximately 50,000 miles of railroad each.

GREAT BRITAIN NOT TO PARTICIPATE IN THE PANAMA FAIR

Decision Intimates Resentment at Course Regarding Fixing of Canal Tolls.

TREATY OF ARBITRATION LAPSES BY LIMITATION

United States Senate Fails to Ratify and Now There Seems to Be No Prospect of Its Early Renewal.

Washington, July 31.—After delaying an answer for over a year, the British government has informed W. H. Page, American ambassador to the court of St. James, that Great Britain will not participate in the Panama canal exposition of 1915.

When the refusal was conveyed to Mr. Page, the representative of the United States in London was informed of it, although an effort was made to form a general boycott against the exposition.

It is thought the British government is thus avoiding the celebration incident to the opening of the canal is more anxious to show its resentment at the failure of the United States to arbitrate the tolls question, than to insist upon the original claim for low tolls.

LARGES FARMER EXPIRES.

London, July 31.—Sir Richard Povey-Adams, Bart., probably the largest farmer in the world, who owned considerable properties in North and South America, died yesterday from pneumonia in his 66th year.

RACING MOTORCYCLE STRIKES ELECTRIC POLE; BRINGS DOWN LIVE WIRES; SENDS FLAMING GASOLINE OVER CROWD; 7 DEAD; 3 DYING

Frightful Accident at Lagoon Amusement Park Near Cincinnati—Rider Who Caused the Mishap Pays With His Life—Coroner Orders the Arrest of Three of Park Officials for Voluntary Manslaughter.

Cincinnati, Ohio, July 31.—With seven dead and three dying as a result of the accident to the motorcycle of Olin Johnson at the Lagoon amusement park near Cincinnati, today procured warrants charging three of the officials of the amusement park with voluntary manslaughter. The three men are Manager Herhardt, of the motorcycle, Manager Wilbur of the park, and Manager Ruch of the motorcycle lease.

The list of the dead was not augmented today, but attending physicians said that at least 10 of the burned cannot recover and that the condition of several of the others is precarious.

List of injured is steadily increasing as the names of those who were taken away by private parties became known. It has been ascertained that the fiery fluid was thrown over no less than 30 persons.

Cincinnati, July 31.—Two are dead, six will die, according to attending physicians, one other is probably injured as the result of a motor cycle accident at the Lagoon amusement park near the river from this city last night.

Olin Johnson, of Salt Lake City, captain of the Cincinnati team, which was contesting in the motorcycle, was some reason that will probably remain unknown, drove his machine to the extreme top of the circular track, crashed into an electric light pole, broke it off and the contact of the live wire with his machine exploded the gasoline tank, throwing the burning fluid over a score of persons.

Johnson paid the penalty with his life. That a large number of others who were taken away by private parties, and who were not burned is almost a certainty, as several drugs stores in the vicinity of the park were kept busy for an hour after the accident, tending the burns of those who escaped without serious injury.

Liberal Candidate Carries Every Poll in Athabasca

THE VICTOR IN ATHABASCA

HON. A. G. MACKAY THE GENTLEMAN FROM ATHABASCA

Majority 155 With Only Two Polls Remaining to Be Heard From.

BALANCE CANNOT CHANGE RESULT, IS ADMISSION

Only Two Have Not Reported and the Balloting in These Is Not Likely to Show for Conservative.

RETURNS BY POLLS:

- Poll No. 1—Liberal majority . . . 11
- Poll No. 2—Liberal majority . . . 1
- Poll No. 3—Liberal majority . . . 1
- Poll No. 4—Liberal majority . . . 1
- Poll No. 5—Liberal majority . . . 17
- Poll No. 6—Liberal majority . . . 16
- Poll No. 7—Liberal majority . . . 10
- Poll No. 8—Liberal majority . . . 23
- Poll No. 9—Liberal majority . . . 12
- Poll No. 10—Liberal majority . . . 47
- Poll No. 11—Missing
- Poll No. 12—Missing

Liberal majority 155

With only two polls in the riding to hear from, the result of the election in Athabasca is indicated by the fact that Hon. A. G. Mackay, the Liberal candidate, is leading with a majority of 155. The vote in the two polls above mentioned will not materially affect the result, although it is generally admitted that they will both register majorities for the liberal candidate. Mr. Mackay's election by a substantial majority is conceded by the Conservatives.

A number of votes have been protested on each side, but with all these however, the margin of the Liberal would still be elected by a majority of 100 or more.

As a closing feature of the contest two monster rallies were held in Athabasca last night, at which Hon. Duncan Marshall, minister of agriculture, Hon. F. W. Croxall, attorney-general, Hon. P. Lessard, Hon. Chas. Stuart, and others addressed large bodies of electors who had congregated to congratulate Mr. Mackay upon his election and upon the clean, straightforward manner in which he had conducted his campaign.

Speaking of the result of the election a number of the residents of Athabasca declared that above all others which contributed to Mr. Mackay's election, the speech by the Liberal M.P. for Calgary, who was imported into the riding at the last moment, did the most toward securing votes for the liberal candidate.

Nearly all the prominent conservatives in the province took part in the campaign, among them were Leader Michener, Harold Miller, ex-M.P. P. A. F. Brown, attorney-general, Hon. P. Campbell, F. L. C. "Alie" and about 70 others.

Col. Carstairs was a conspicuous feature about the polling booths yesterday. Acting in behalf of the conservative candidate in the riding, he attempted to interfere with the work of the deputy returning officer, who had him forcibly ejected from the polls.

The Colonel swore out a warrant against the returning officer but when the case came on this morning and it was pointed out that Carstairs had no business in the poll, on the advice of his solicitor the case was dropped. His general opinion is that the election was fortunate in having encountered a returning officer who pressed a charge against him for interfering.

Hon. A. G. Mackay returned to the city this morning, and in speaking to a Capital representative, stated that he was naturally well pleased with the result and was very grateful to the electors of Athabasca who had rendered him such hearty support. He had endeavored to carry out his campaign along straightforward lines and had based his chances of success or failure to win the seat upon a policy which stood for the advancement and development of the riding. The electors had responded nobly and by their votes had shown that they stood for those things which will tend to improve the constituency.

Hon. A. G. Mackay, who returned to the city last evening from Athabasca, where he addressed two meetings, stated that he was well pleased with the result, although he had always expected that the Liberal would win and that the point in doubt was the size of the margin.

PAINTER PAINFULLY HURT WHILE ENGAGED AT WORK

Heavy Steel Hook Falls From Cornice and Strikes Him on the Hip Injuring Him Badly.

A painter by the name of McLeod was painfully injured this afternoon at 1300 O'Connell while engaged in decorating the front of the new Red's Variety store, First street, when a heavy steel hook was precipitated upon him.

With an assistant, Mr. McLeod was lowering one of the big steel hooks from the cornice of the building. The hook fell and struck him on the hip. The injured man was hauled to his home by automobile, a police officer accompanying him.

BARBERS' PICNIC AT COOKING LAKE

Weather All that Could Be
Desired and Athletic Pro-
gramme Extensive.

Local 277 of the Barbers' Union held their annual picnic at Cooking Lake yesterday and all report a most enjoyable time. The weather was all that could be desired and after the contents of the well-filled baskets had been devoured the parties busied themselves with the various sports and water pleasures.

An athletic program consisting of 20 events was put on, with the result that the contests went in the following order:

20 box seats at Pantages theatre, value \$15, presented by C. Gill, manager; 50 best cigars, by Dechene and McNeil.

The 100 yard dash for journeymen only, won by G. Barber, 1st; McDonald, 2nd; J. Ling, 3rd.

The winners in the 100 yards master barbers were: 1st, G. Barber; 2nd, P. Swan; 3rd, G. McMillan.

One of the most exciting events of the day was the 75 yards, ladies, which was won by Mrs. G. Hammett; 2nd, Mrs. A. Arthur; 3rd, Miss Barber.

In the 75 yards for boys under 16—G. McDonald, 1st; A. Boyan, 2nd; C. Keyes, 3rd.

The 75 yards for girls under 16—F. V. McQueen, 1st; Miss E. Keyes, 2nd; Russell, 3rd.

The 75 yards, lady barbers—Miss Dahl.

Hop, step and jump—D. MacDonald, 1st; J. Johnson, 2nd; G. Barber, 3rd.

For throwing baseball—Won by G. Barber; 2nd, G. MacDonald; 3rd, J. Ling.

For throwing baseball, ladies—Mrs. Cruthers, 1st; Mrs. Hamman, 2nd; Miss Barber, 3rd.

In the 75 yards three-legged race, free for all—J. Land and M. Houdine.

In the 100 yards, fat men—M. Hart, 1st; J. Corwell, 2nd.

The 75 yards, married couples—S. Mayhew and wife.

The contestants in the committee race were: A. Cruthers, 1st; J. Mayhew, 2nd; A. Crawford, 3rd; F. Ward, 4th.

For 100 yards, gentlemen visitors—Bourget, 1st; Kerfoot, 2nd.

CITY DAIRY EMPLOYEES HOLD PICNIC IN PARK

Four Hundred Attend Gathering of Milkmen Yesterday Afternoon in East End Park

The employees of the Edmonton City Dairy held their second annual picnic at the East End Park yesterday afternoon. About four hundred people attended and the afternoon was a decided success in every way. Special care was taken of the employees and their families to the grounds and the Strathcona band was employed to entertain the picnic with their music. A number of sports were indulged in and resulted as follows:

Girls' under 14—E. White; 2, M. Dunn.

Fat Man's Race—1, W. W. Prevey; 2, J. H. Morris.

Men's Sack Race—1, J. H. Morris; 2, W. Davis; 3, G. H. Morris.

Baseball and football matches took place in the evening.

JAIL FOR POLICE CHIEF.

Kiel, July 31.—Herr Lewicki, former acting police president, was sentenced yesterday to four years imprisonment and fined \$750 for extorting money from a local manufacturer on the promise that Lewicki would stop an alleged criminal action that was pending against the manufacturer.

TO STUDY I. W. W. METHODS.

Boston, July 31.—To study the methods of the industrial workers of the world, Thomas Mann, who led the coal miners of England in the great strike in that country last year, arrived in Boston on the steamship Franconia yesterday.

EDSON WITHOUT LICENSE.

As a result of the action of the provincial board of license commissioners, on Tuesday, in cancelling the license of the Commercial hotel, the town of Edson is now without a license. The Edson hotel is the only other house in town.

MANY USES AND FULL DIRECTIONS ON LABELS AFTER-CAN 10¢

Offensive Breath Caused Usually By Catarrh

A Simple Remedy Discovered That Cures Without Drugs.

The American people suffer more from Catarrh than from any other disease. It undermines more constitutions and creates more sickness than all other diseases combined. It is, therefore, very dangerous.

You can't successfully treat Catarrh by internal dosing—you must in some way send a purifying, healing agent through the breathing organs, so that the germs can be reached. This you do every time you inhale Catarrhazone. Its rich essences and healing balsams are breathed all through the nose, throat and lungs, and effectively destroy every trace of Catarrh. This is a proven fact.

I endorse Catarrhazone because I know of six hundred cases of Catarrh, including my own, that it has cured. It is a sensible remedy because it is capable of going where the disease is. I believe it cures quicker than other remedies because it gets sooner to the source of the disease than anything else I know of. I had headaches, bad breath, and much stomach trouble associated with my Catarrh, but they have disappeared since using Catarrhazone, which keeps me free from colds, headaches, catarrh and all winter ills. OTTO E. KRAMER, Belleville, Ill.

Catarrhazone is needed in every home. Large size lasts two months, price \$1.00; small size, 50¢; trial size, 10¢. All storekeepers and druggists or The Catarrhazone Co., Buffalo, N. Y., and Kingston, Canada.

MUNICIPAL NEWS.

Dr. Whitlaw Upheld—

The commissioners approved of Dr. Whitlaw's contention that Inspector Buck was not acting wisely in recommending that in future such cases should be turned over and handled by the stores and works department. Dr. Whitlaw pointed out in his letter to the commissioners that the inspectors who call at the residences must deal with sanitation and remedy unsanitary conditions which are frequently due to the lack of proper receptacles. As this matter begins at the health department he contends that it should end there.

Claims \$80,000 Damages—

In a letter from his solicitor, W. A. D. Passmore has notified the commissioners that he intends to take action against the city in the sum of \$80,000 to cover the damage done to his property in the Jasper avenue subway. He is the owner of lot 41, block 9, and claims that on account of the subway and the fact that a part of his lot has been used for the road and sidewalk, he has sustained damages to the extent of \$80,000. The letter was referred to the mayor, who was not in attendance at the meeting of the commissioners yesterday afternoon.

Diving Outfit Purchased—

The diving outfit used by his engine. The city engineer has recommended that the water main, east of the 45th, which amounted to over \$100 for the time the city had the use of the suit. It was secured from the city of Vancouver. This suit was returned and the engineering department asked the commissioners to purchase for the city a complete diving outfit, as there will in all probability after he ceases where an outfit is required to take care of river troubles. Then too, it can be rented to responsible parties and bring in revenue to the city. The commissioners agreed with this suggestion and authorized the purchase of such an outfit at their meeting yesterday.

Clara Street Paving—

The city engineer has recommended that Clara street be finished as a 66-foot business street, that is, it will have two 11-foot sidewalks and a 44-foot paved street. He suggests that the full width walk, much he laid as far back as the line at the rear of the lots facing on Norvay avenue, the inner half of the walk could be laid from this point to the end of the street. The delegation that waited on the council some time ago wanted the whole walk this year. The engineer's letter was referred to Commissioner Chalmers to take up with the property owners.

Steamer Hydrants Installed—

In the fortnightly report submitted by Superintendent Turner, of the waterworks department, he states that the steamer hydrants have been installed on First street, between Churchill and Pine avenues, also one in the Highlands. These are all ready for use by the fire department. Two valve chambers have also been constructed on First street on 10 and 16 inch valves.

Playground Supervisor—

O. H. Jackson, of the provincial department of delinquent children, has accepted the position offered him by the school board as supervisor of playgrounds in the summer school.

Social at Summer School—

A pleasant social was given yesterday at the University by the Public school teachers in attendance at the summer school. Following a program given in the assembly hall, there was a promenade and refreshments were served by the ladies. Among the speakers were Dr. Miller, principal of the school; W. G. Carpenter, who spoke on behalf of the nature study department; J. L. Riches, and S. B. Van Riffin. Mrs. McNeil gave an excellent reading.

Athabasca Landings Boosted—

A big future for Athabasca Landings was prophesied by Charles Van Horne, a Chicago newspaper man, who has been investigating conditions in the North country. In two or six years said Mr. Van Horne, the Landings will be considered as being among the best cities in the province.

635 FIRST STREET Near Jasper Ave. Opposite
Bijou Theatre

NORTH EDMONTON

Busy at Burns' Plant—One hundred and fifty men are working on the interior of the new P. Burns' packing plant at North Edmonton, which is being pushed ahead with all possible speed. The work on the building will be completed in time for the plant to open about the middle of September.

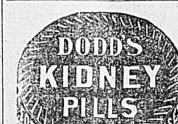

New Brick Buildings—In the place of the frame buildings on Norton street, North Edmonton, which were torn down during May, several new brick blocks have been erected. They are being occupied by stores. Work on the North Edmonton hotel is advancing rapidly, the building now being up to the third story.

Church Builds Sidewalk—Because the city did not build a sidewalk to their church, a block and a half north of Alberta avenue, the congregation assumed the responsibility of financing it. There is now a straight and handsome two-plank walk leading to the church.

New Fire Hall—Material for the new fire hall and police station at

North Edmonton is being placed on the ground. The excavations for the building is nearly completed and the structural work should start in a few days.

Two-Storey School—By the end of the school opens in September a new two-story frame schoolhouse will be ready for occupation. It will be a separate school.

THE PRO

"NO SMOKING" EDICT FOR CITY EMPLOYEES

Lady Nicotine Debarred Where Municipal Employees Earn Their Daily Bread.

"No smoking" is the edict which has gone forth from the office of the city fathers and applies to all public offices of the city and also where there are ladies employed. The prohibition all the mere males who work for the city from inhaling a few puffs of their favorite brand of tobacco while enjoying a rest between working spasms. There have been many wails and lamentations over the new order as the men feel that they are being deprived of a pleasure that does not interfere with business in any way and adds greatly to their work.

JUVENILE GOOD TEMPLARS.

Excelsior Juvenile Temple No. 2 will meet this evening in the City Mission Hall, corner Bellamy and Kimbino avenues, at 7:30 o'clock. A large attendance is desired as important business has to be transacted. Weather permitting, photographs of the members will be taken.

The Edmonton Police Amateur Athletic Assoc. Games

The postponed meeting will be held at the Exhibition Grounds on the North Side on

Saturday, the 2nd August, 1913

at 2 o'clock

The Citizens' Band will be in attendance.

Prizes will be presented at Pantages Theatre, Jasper Ave. West, immediately after the second show on Saturday evening by the Lady Mayores, Mrs. Short.

By Order, Chas. Wm. Sandles, Secretary.

CROWDS AT REGINA FAIR.

Regina, July 31.—Yesterday was citizen's day at the Regina fair, and in addition to a large turnout of local people several excursions to the city brought hundreds of country visitors to the fair. The morning broke with a very high wind and blowing, and the breeze was too cool to make it comfortable for those who were not supplied with full clothing, but before the sun came out the clouds had blown over and the evening was fine and clear. The estimated total attendance yesterday was a little over 20,000.

AMERICAN PANIC IS PREDICTED BY THE REPUBLICANS

And Democrats Accuse Them
of Trying to Bring This
About by Speeches

ORATORICAL STORM IS STOPPED BY WIND STORM

Battle of the Elements is the
Cause of a Let Up in That
of the Senators in Washing-
ton.

Washington, July 31.—Democrats and Republicans of the senate clashed again in debate on the Underwood-Summers tariff bill yesterday when Senator Stone charged that the Republicans were deliberately attempting to bring on a panic in their speeches attacking the pending measure.

Republican leaders, denying any intention to bring about disaster, declared they feared that such actually would be the result. Senator Gallinger asserted he was not "calamity hawker," but that he actually feared the results, which he hoped would not come. If the disaster he feared did not come, the senator said, the "glory" would go to the Democrats.

Senator Penrose declared that not only did he fear the proposed bill would bring on disastrous consequences, but that industrial depression already was upon the country. He cited instances of steel mills in Pennsylvania that already had closed down.

While Republican and Democratic leaders were engaged in hot discussion, Senator Stone, in his talks, he had always stated he did not believe in the pending bill. He was not a disaster hawker, and that the people of his state did not believe so.

"I am not referring to the Progressive Republicans," said Senator Stone. "I mean the majority of the majority were attempting to arouse the people."

After the flurry of this oratorical storm and the later excitement caused by a hail and wind storm which forced a recess of the senate, considerable progress was made in consideration of the bill. The earlier schedule was completed except for a few paragraphs which were passed and the final schedule was taken up. Strong opposition to this schedule developed, being proposed by Senator Oliver for the regular Republican, and Senator Cummins for the Progressive Republican.

Characterizing the democratic tariff bill as "neither fish, fowl nor herbage," a measure not framed on scientific principles of either free trade or protection, and declaring it will not benefit the people because it will injure not destroy the producer, Senator Granger, progressive republican for North Dakota, attacked the measure in the tariff discussion in the senate today.

"The great industry of agriculture," he said, "is again the subject of an unjust onslaught and discrimination. I call your attention to the fact that in my state alone, where, in 1912 we raised more than 14,000,000 bushels of wheat, with short crops in foreign countries under the provisions of the bill, our farmers would lose in a single year more than \$15,000,000."

Senator Granger declared that it is discriminating against the farmer the measure found themselves in the difficult position of having two sets of reasons inconsistent with each party, none the one or the other as the question might seem to demand, and that now they are attempting to use both at the same time.

THE WEATHER.

Water-plane Stations to Encircle British Coasts

Flying Boats Have Proved Themselves Invaluable as Scouts and as a Means of Discovering the Approach of Submarines—All Possible Haste in Construction.

London, July 31.—The Daily Mail claims high authority for the statement that the admiralty intends with the utmost haste to encircle the British coast with water-plane stations, 50 to 100 miles apart.

Coast Acts Against Dumping There Peasants from Russia

Point is Made That Now There Are More Unemployed Than Can Be Taken Care of With the Result That Never Have Such Demands Been Made on the Charity Funds.

Victoria, July 31.—Learners that this coast is shortly to be deluged with the hordes of the Volga and the barren wastes of Siberia, Mayor Morley yesterday morning declared that the dumping of immigrants from the dominion of the interior, proceeding through the local immigration agent, the flooding of British Columbia by these people, to be brought here by the Russian Volunteer Fleet from Vladivostok. Never has the demand on the charity fund been larger than this season, and the mayor foresees further complications if the number of unemployed in the Pacific coast cities are to be increased by these immigrants who know nothing of local conditions. He therefore has requested the dominion authorities to make such arrangements that the men may be sent through to the prairies, where work is plentiful in the harvest season.

Montreal City Foreman Puts Fortune in the Bank

He Is Arrested as a Result of the Wholesale Charges of Graft Made in Montreal—Other Arrests Are Considered Likely to Follow Shortly.

Montreal, July 31.—Petro Celli, a foreman employed by the city, was placed under arrest last night after a warrant technically charging him with obtaining money under false pretences. The arrest is the outcome of wholesale charges of graft against the city foremen made by the city laborers who were compelled to pay for their job.

Celli was taken to police headquarters and searched. A bank book showing deposits during the present month of \$1,000 were found on him, as well as \$16 in cash. Notwithstanding his protest, he will be compelled to remain in custody until the charges are arranged.

MEXICAN REBELS HAVE PEACE PLAN

All They Need to End the Trouble, They Say, Is Permissiveness to Get Arms.

Norales, Ariz., July 31.—Venustiano Carranza, the Mexican rebel chieftain, wired his Washington agents yesterday that he would pledge peace in Mexico within 90 days if the United States government would grant the constitutionalists the right to import arms and war munitions freely.

This was the first formal offer obtained yesterday from a reliable source. Acting Governor Yucatan Despuig, who is in Nogales, Sonora, last night endorsed Carranza's pledge. He said the constitutionalists could win the revolution in other states, could capture Mexico City and overthrow Huerta in two months.

Dr. Pass, July 31.—Corporal Smith of troop A second cavalry, U.S.A., shot and killed a Mexican, a subordinate of Colonel Fortages' command said to be his personal servant at Orizaba, on the Rio Grande yesterday, as he was attempting to cross the international boundary fully armed and on horseback. The Mexican has been killed.

The corporal's bullet cut a furrow in Monteros' scalp and felled him from his mount. The Mexican has been killed by the army surgeon at Fabens and is being held a prisoner, together with five other Mexicans and three wagon loads of provisions. They were attempting to cross to Fortages' camp.

Stead's Family Puts Wreaths on Titanic's Grave

As Franconia Lays With Engines Stilled, Band Plays "Nearer My God to Thee."

Boston, July 31.—Wreaths fashioned by members of the family of William T. Stead, the London editor and author, who was lost in the Titanic, were cast from the deck of the Cunard liner Franconia as that vessel lay with engines still, over the grave of the Titanic last Sunday afternoon. Fifteen hundred men and women stood while the ship's band played "Nearer My God to Thee."

The services were arranged by Miss Kate Stevens, who was associated with Mr. Stead in the raising of laurels picked from Mr. Stead's garden. Miss Stead was one of the passengers arriving on the Franconia yesterday.

SPAIN AGAIN GAMBLING.

Madrid, July 31.—The provincial governors of Spain have been ordered strictly to forbid gambling in casinos and clubs at watering places. No exceptions are to be made under the order.

A MESSAGE FROM A WOMAN TO WOMEN

Every Woman Should Take
"Fruit-a-lives"

Lakelet, Ont., May 12th, 1911.
"Kindly publish this letter of mine if you think it will benefit other women who might be afflicted with the diseases I have had in the past, but am now, thanks to 'Fruit-a-lives,' completely cured of. It is my firm belief that every woman should take 'Fruit-a-lives' who wants to keep herself in good health."

Before taking 'Fruit-a-lives' I was constantly troubled with what is commonly known as 'Nerves' or severe Nervousness. This Nervousness brought on the most violent attacks of Sick Headache, for which I was constantly taking doctors' medicine without any permanent relief. Constipation was also a source of great trouble to me and for which the Doctors said 'I would have to take a cathartic every day,' but 'Fruit-a-lives' banished all these troubles and now I am a well woman."

MRS. FRED GADKE.
Box a box, 6 for \$2.50—trial size, 2c. At dealers or sent prepaid on receipt of price by Fruit-a-lives, Limited, Ottawa.

SIR DONALD MANN FEELS OPTIMISTIC

He Says that Crops in Canada Excellent and Railways Satisfactory.

Winnipeg, July 31.—"With a clearing financial sky, promise of abundant crops and better railway facilities to those who crop Canada, I am not pessimistic," declared Sir Donald Mann last night on his arrival after a tour of inspection.

"The crops in Alberta, Saskatchewan and Manitoba are looking magnificent, and at dealers or sent prepaid on receipt of price by Fruit-a-lives, Limited, Ottawa."

Referring to the \$4,000,000 issue of debenture stock guaranteed by the British Columbia government, the successful flotation of which has just been announced, Sir Donald stated the money would be spent in the form of loans at Victoria, Vancouver and Port Mann.

MANY SCORE HURT WHEN TRAINS HIT

Engineer Is Killed and 146 Passengers and Trainmen Are Injured.

Altoona, Pa., July 31.—Engineer George Funk was killed and 146 passengers and trainmen were injured, some seriously, when a fast passenger crashed into the rear end of a lumber train on the Pennsylvania Road at Tyrone, 15 miles east of this city.

The Pittsburgh Express, which arrived at Tyrone four minutes late, had called in its flagman and had already started away from the station when, on number 13, a fast express of freight cars from the west, running on time and traveling about 30 miles an hour, came around the curve, less than 12 feet beneath the end of the station and into the lumber train.

The impact derailed the locomotive and three cars of No. 13, and sent the rest of the Pittsburgh Express flying.

G. L. Miller, road foreman of engines, who was on the locomotive with Engineer Funk, had his skull fractured and may die.

Would Tax All Childless Over a Certain Age

Bachelors Not the Only Ones Gone After In Proposed French Measure

Paris, July 31.—The Franco-Franco society the draft of a proposed law, taxing not only bachelors, but also all childless persons over a certain age.

According to statistics given by Dr. Barthelemy, France has about 1,800,000 childless families, 2,600,000 families with one child, 2,400,000 families with two, and 2,400,000 families, each with a single child.

The proposed bill, fixing for each citizen an obligatory minimum of three children, would impose a tax of 50 francs each on a childless person, or on any other citizen of 40 years and over who has not three living children, or has not reared three children to the age of 21. The tax would, it is calculated, produce an annual revenue of \$12,000,000. The proposal has been submitted to the ministers of justice and finance, whose opinions have not yet been made public.

Genuine Savings at "The Bay" on Friday

Fresh Fruit & Vegetables at Special Week End Prices

SOCIAL DEMOCRATS MAKE COMPLAINTS OF APATHY

Report Speaks of a State of Affairs Bordering Upon Despair—Women Increase Membership.

Berlin, July 31.—The first installment of the annual report of the German social democratic party, which will be presented to the party congress in June, in September, complains that

during the past year the party made hardly any progress, and that the increase in membership has never been so insignificant. The report speaks of the state of affairs as almost bordering upon stagnation. The increase in membership amounts to only 12,748 of whom more than 10,000 are women. In 15 districts diminution in members has been reported. More significant still is the decrease in the number of subscribers to the party press, even the Vorwaerts circulation is 1,000 less than last year. Oh, lovely woman, do not frown, for the increase in membership is only right. Vote, if you will, but please put down that can of dynamite.

WM. MACADAMS, EDITOR.

HENRY J. ROCHE, MANAGER.

THE CONSTANT MENACE OF DIFFUSED RESPONSIBILITY

Added to the list of successful flotations in London during the past few days comes now the Canadian Northern with an issue of \$4,000,000 four and one-half per cent. bonds placed at one-quarter premium yesterday. This makes the fourth big western issue floated in London in the past four days, the City of Winnipeg, the Grand Trunk Pacific Railway, the City of Vancouver and now the C. N. R., having all placed loans at a premium, the aggregate totalling eleven and a half million.

In the meantime, Edmonton's curtailment plan goes tragically on and the news is heralded across the continent that this city, with its assessment of one hundred and eighty millions and its ownership of utilities which would be a prize in the hands of any private corporation, is not able to raise sufficient money on its credit to do the absolutely necessary work planned for the current year.

When it is taken into consideration that the electric department has a surplus of more than \$150,000, and is steadily adding to it at the rate of \$10,000 a month, that the power plant is recording a surplus every month of from \$5,000 up, that the telephone department has a surplus on hand and has never yet recorded a deficit, that the street railway, by any system of book-keeping which gave it credit for the interest upon the money it is not using, would be showing a regular monthly surplus, and that the city has never yet had to hold a tax sale in order to bring its general revenue into the municipal coffers, the advertising that the city's credit is so bad that it cannot realize upon the bonds it has sold is little short of disastrous.

When it is also taken into consideration that the payments of the money upon the bonds through the sale of which the city proposes to raise the funds for the improvements contemplated are not yet due, that the bonds have not yet been presented for payment, and that they are not yet even printed, the nature of the blunder which inflicts this injury upon the credit of the city of Edmonton must be apparent to the tyro in finance as well as to the finished financier.

What Edmonton evidently needs most of all, if it is to be saved from the consequences of such blundering as this, is a change of system. Quite evidently the system under which Edmonton gets into this distressing condition is by no means perfect. But its imperfection becomes more glaringly apparent when it is taken into consideration that in the midst of all this there is in the whole ensemble of the city's administrative troupe no responsible head of any finance department to whom the ratepayers may look for an explanation of how it came that this deplorable condition in the city's financing came to exist. As a matter of fact, there is not only no responsible head to the finance department, but there is no department of finance at all. The entire membership of the appointed commission board is responsible, which means that nobody is responsible. And they are responsible in common for finance in the same way that they are responsible for every other branch of the city's business. Not directly, specifically, personally, but just generally, for finance and for everything else.

If there were in existence in this city today any such department as a finance department, the man at the head of it, being responsible for the city's finance, would have to very speedily give a reason why he led the city into its present position, or he would have to admit that he was not qualified for the office which he was holding in the city's scheme of administration.

Commission government has this advantage over the system—or lack of it—under which Edmonton is alleged to be administered at the present time, that with the true commission government there would be a finance department, and the man at the head of that department would be responsible to the ratepayers for the handling of the city's finance. Then when newspapers all over the world commenced to publish in their financial columns that Edmonton was unable to get money on its credit, there would be someone who would have to show a reason why such things were being said against the credit and good name of the city of Edmonton.

Until Edmonton does take up the commission form of government, or in some other way injects the principle of departmentalization and responsibility into its handling of the city's affairs, Edmonton will be continually menaced by the possibility of just such a condition as has developed under the present charter while being administered by the hand of the man who wrote it and declared it good.

THE ANTICIPATED OUTCOME IN ATHABASCA

The returns from Athabasca indicating the election of Hon. A. G. MacKay in the deferred election in that constituency corroborates what must have been anticipated in the minds of all who have followed the drift of political affairs in the province of Alberta.

The defeated candidate, Mr. Wood, while a very estimable gentleman and a citizen whom Athabasca has every reason to hold in the highest esteem, was unfortunate in the party whose cause he chose to espouse, and meets a fate at the hands of the electors which, while it cannot be construed to indicate any lack of confidence in his integrity and loyalty to his chosen city, must be regarded as an estimate of the lack of faith which the country as a whole has in the party of the opposition.

In making an appeal to the electors of Athabasca the conservatives, by their attitude, put themselves out of court at the outset. In the legislature and out of it their policy, if it can be dignified by the name of a policy, has been consistently to oppose the schemes of development which the government has been advancing. Every railway project which has received the government's support in the nature of a guarantee has been opposed by the conservatives. Their whole election cry has been that the government was fooling the country with a phantom scheme of "paper railways." The construction which has been undertaken to date is in every case of railways which have been objected to at one time or another by the opposition in the legislature.

As a frontier constituency, Athabasca, more than any other constituency in the province, requires a policy of active development. They must have railways to develop the resources which will ultimately make that country great. What more natural then, when the government appeals to

them than that the electors of Athabasca should endorse the action of the government by giving the government candidate a majority?

When there was added to this the circumstance that the candidate offering in the government's behalf happened to be a public man of breadth, experience and capacity, whose mental attitude upon the elemental questions of policy is as sound as Mr. MacKay's is known to be, there could never have been room for doubt as to the ultimate outcome of the contest.

WHY THE OLD GUARD FIGHTS THE CURRENCY BILL

Led by Penrose, the old guard in the United States senate is again fighting in phalanx form, this time against the currency bill.

United States has, in its currency laws, one of the completest trusts that the world has yet produced. Under its aegis the banking business in United States has been developed into a money power which is so complete in its control of the mercantile and industrial of the country that the flotation of a company is impossible except with the consent of the ring. With the imprimatur of the ring anything in the nature of securities becomes valuable in United States at once. Without it King Solomon's mines would go begging on Wall Street and the diamond fields of Africa would lie forever undeveloped.

The control of the circulation medium, at present vested in this ring, is threatened in a currency bill just now before the house. Once this control of the circulating medium gets out of their hands the basis of the present money power is shattered and their most effective political weapon, the power to suddenly contract the currency of the country, is taken out of their hands. This is why the old guard of standpatners in the senate is fighting as it is in Washington these days against the currency bill.

Friday is Rummage Day—What a Treat!

All the odd lots—all the ends—all broken sizes—all partly soiled or mused articles from our great Midsummer Sale—piled high on counters and tables.

IN A BIG RUMMAGE SALE, FRIDAY SNAPS FOR EVERY ONE

FIRST THINGS.

FOUNDER OF ZIONISM

The first to advocate the establishment of a modern Jewish state in Palestine was Dr. Theodor Herzl, in whose honor memorial mass meetings will be held today by Zionists throughout the world. The "father of political Zionism" was a journalist, and until his thirty-fifth year he lived in a non-Jewish atmosphere. It was while acting as Paris correspondent of a Vienna newspaper that he was awakened to a realization of the prejudices that still persisted against even such thoroughly occidental "as was Dr. Herzl. In 1896 Dr. Herzl published his first pamphlet, "A Jewish State," in which the re-establishment of a Jewish commonwealth was proposed in detail as offering the only solution of the problems facing the Jews. That same year he called the first international Zionist convention in Basle, Switzerland, where the movement of political Zionism, which now has its adherents

among the Hebrews of all nations, was formally launched.

CABLE RAILWAYS

The first cable car line in the world was opened 40 years ago today, and in the following decade this method of carrying street traffic became general in the large cities of America. In San Francisco, Cincinnati, Kansas City and other western cities where steep grades rendered horse cars impracticable, cable cars were first used, and greater speed and efficiency led to their adoption in other cities. The cost of installation was very high, however, and with the coming of the electric railway cable system is now often in conjunction with mountain lines, New York the most important cable line was on Broadway. Third Ave. extensive cable system for many years before the introduction of electricity. The cost of installing a cable system was as high as \$200,000 a mile, and the cost of operation was also higher than that of trolley lines.

TITLE TROUBLES SERVANTS.

Dr. Brent, the American bishop of the Philippines, who has shocked New York society by traveling in the steerage because he believes that a bishop's place is among the poor, is thought he now works with the sales of the Episcopal church of the United States. When he visits England his territorial title proves a sure trial to servants, by whom he is generally announced as "the bishop of the Philippines." Once when dining with a leading London Nonconformist he heard himself grave-

ly described as "the lord bishop of the Philippines."—Westminster Gazette.

IN MAINE.

"Is there any place around here where I can get my shoe shined?" asked Pellow, addressing the man in front of the rural garage. "We've got a dunnit, mister," was the reply. "This here's a prohibition state, but I may have some on hand for medicinal purposes, if you're real sufferin'."—Harper's Weekly.

ROUMANIA MAKES FARTHER ADVANCE EASTERN RUMELIA M.P.'S SHOWING GREAT INTEREST

By Reason of This Communication With Northern Bulgaria Also Threatened

TRANSPORT DIFFICULTIES ARE HAMPERING GREEKS

Recent Fighting More Favorable to the Bulgars—Latter Reported to Have Taken the Offensive.

London, July 31.—The Roumanian troops, according to the Times' Sofia correspondent, have advanced to Philippopolis in Eastern Rumania 84 miles northwest of Adrianople and Tarnopol, 23 miles northwest of Philippopolis, and by reason of this communications with Eastern Rumania as well as Northern Bulgaria, now are threatened.

Bulgar Victories Reported. London, July 31.—The allied with the Greeks and Servian delegates at the Balkan peace conference at Bucharest consented today to five days' truce, hears out the indications emanating from Greek sources yesterday, that transport difficulties were hampering the Greek operations, and that the recent fighting had been more favorable to the Bulgars than the Greeks, who were willing to admit. This seemed to be further confirmed by the Sofia semi-official dispatch, stating that the Bulgarians had won victories at the upper Presnizna River, the plain of Ichnovo, and in the Mesta Valley.

It is expected that the conference at Bucharest will last two or three weeks, and the chances are said to favor peace being arranged.

The government, informed parliament yesterday, that Great Britain would take no separate action against Turkey in the Balkan dispute.

Greeks Defeated. Sofia, July 31.—A semi-official report issued last night says that the Bulgarians have taken the offensive against the Greeks and made them themselves masters of the upper Presnizna river and of the plain of Ichnovo, thus separating the Greek and Servian armies. The report says also that the Bulgarians defeated the Greeks in Mesta Valley, thereby completely clearing the path for Greek advance.

Agreement to Armistice. Bucharest, Roumania, July 31.—The peace conference continued yesterday afternoon at the foreign office. The Roumanian premier, Theodor V. Sturdza, was elected permanent president of the conference. The only business transacted was the agreement to a five-days' armistice.

How the King Lives. Greek Army Headquarters, Livorno, Macedonia, July 31.—The advance of the Greeks, which has reached Dium, 40 kilometers off Livorno, will soon remove the headquarters nearer to the front and the king will not regret leaving the little one-story house that serves his headquarters. Two sentries alone marked the house from the others.

Photo of the Queen. The king's mother is reached by a photographer's staff, and furnished in the simplest manner. In a corner of the apartment company bed, mosquito netted, and an "enfermement" in toilet is placed on a stool and covered with newspaper. While the white wood table on which the king's papers rest, has a newspaper table cloth. His briefcase bears the crown and the letter "K" in the king's room.

On the table are six watches and a framed photo of the queen, a broken bottle and two silver lions. The picture chair is broken and the cushions are covered with newspapers, which are hung on a string from the ceiling.

The prices are no better off than the king's. The crown prince and Prince Andrew share the house under Nicholas and Christopher prefer a tent.

The king and the princes and staff take their meals on the balcony of the prince's house or in the back yard. The king works all day, with his chief of staff, and sometimes automobiles to visit the front.

MUST SUBMIT LECTURES. London, July 30.—With a view to obtaining a reprieve of the lectures produced by the Rev. George Jackson's opinions as expressed in his letter to the Plymouth conference of the Wesleyan church, sitting in pastoral session yesterday, decided that submitted to the board of the Wesleyan conference before they can be read and published.

NELSON BEATS \$40,000 BILLY. Nelson, July 31.—A bylaw to encourage the local issue of \$40,000 by the Nelson Street railway company was yesterday defeated by property owners by six votes.

SEPARATED FROM REGINA. Moose Jaw, July 31.—For the first time in the history of the city a Presbyterian ministry was held here. The district has been separated from Regina, but Rev. George Bayne is the first minister.

JUDGMENT FOR DEFENDANTS. Montreal, July 31.—In the case of Albert and Pauline, July 31.—The Southern news yesterday gave judgment in favor of the defendants. The case arose out of a dispute between the plaintiff and the defendant, the plaintiff claiming that the defendant had broken a contract on behalf of the defendant.

AUSTRALIAN PROSECUTED. Sydney, July 30.—A Sydney cablegram says that over five per cent of the people on the register for compulsory defence had not yet been prosecuted. The authorities are determined to enforce the act.

INVESTIGATING OIL RESOURCES. Nicholas W. Greening, expert for the National Gas Securities company of New York arrived in the city today for the purpose of investigating the petroleum possibilities of the Dunvegan district.

FOOT NEGLECTING TO DRILL. London, July 30.—A Sydney cablegram says that over five per cent of the people on the register for compulsory defence had not yet been prosecuted. The authorities are determined to enforce the act.

EMBROIDERY FLOUNCING GIVEN VERY LOW. This is a very fine quality Swiss Embroidery, 27 inches wide, with from 11 to 12 inches of daintily embroidered design. This is the most popular width of embroidery of the season and the quality is so exceptionally good that it should sell very quickly. As long as a limited quantity lasts, price, 49c per yard.

Great Year in Sight for British Suffragettes, Declares Whittier

But "Old Moore" in His Famous "Almanac" Has Little Comfort for Other Folk, Gloomily Predicting Disasters Galore—Some Comforts for Sweethearts.

London, July 31.—The year 1914 is moving picture film, the burning of a government building, minus explosion, the vote being given, according to "Old Moore," England's only licensed prophet.

The famous "Almanac" which came out yesterday, has, however, little comfort for other folk, for the prophet death in the Royal family and an attempted assassination of a cabinet minister.

Turkey is to be spouted off the map of Europe altogether. China will have another bloody rebellion and there is a big massacre due in Asia Minor, while war between Germany and France will be only narrowly avoided.

Lovers may take comfort from the prediction that September 4th to 12th will be particularly favorable for affairs of the heart.

All proposals made on these days will be accepted and marriages effected on them will be of the happiest.

When replying to advertisements please mention the Daily Capital.

OLDEST MEMBER DEAD. Salsbach, Germany, July 30.—The Rev. Dr. Franz Gerner, the oldest member of the Heilsarmee, died yesterday. His death occurred on the sixtieth anniversary of his ordination to the priesthood.

CALGARY POSTOFFICE DELAYED. Calgary, July 31.—Owing to the delay in preparing the plans, work on Calgary's million dollar postoffice is not likely to be started for some time to come, according to a statement made to the board of trade by H. B. Bennett, minister of parliament, last evening.

MORE BIG OCEAN LINERS. Paris, July 31.—The senate yesterday ratified a new 25-year contract with the Compagnie Generale Transatlantique (the French line) under which the company is exclusively authorized to carry the company's mail. It is reported that the company shortly will undertake the construction of several immense ocean liners with which to compete with the other steamship services.
